

CONCEPT II

The Next Generation

by Atkinson & Kirby

Welcome to
CONCEPT II
The Next Generation

by Atkinson & Kirby

Revolutionary advances in our technology have enabled us to produce floors like no other. Unique in colour and finish, you will be amazed by the distinctive looks that can be achieved with CONCEPT II.

Dare to be different, as our only limit is your imagination.

The FSC Logo identifies products which contain wood from well managed forests certified in accordance with the rules of the Forest Stewardship Council.

Suitable for domestic and commercial applications.

NOT SUITABLE FOR USE IN BATHROOMS.

Suitable for use over certain types of underfloor heating (please consult the manufacturers guidelines).

CARE & MAINTENANCE

PLEASE CONSULT THE MANUFACTURERS FULL CLEANING & MAINTENANCE GUIDELINES PRIOR TO CLEANING YOUR CONCEPT II FLOOR.

As much time and effort goes in to making a CONCEPT II floor, as you put into choosing one. Once the floor becomes part of your surroundings, just a little time and effort spent to ensure it is maintained correctly, will keep the floor looking fresh, and new for a long time.

It is recommended that any new floor is buffed before it is utilised, this can be done either by hand or using a machine.

Oiled floors should be maintained regularly - usually once a year, however this may be more often in the case of floors subject to extremely hard wear. Maintenance may also be done locally.

A specialist cleaning kit will be provided with every CONCEPT II floor.

GENERAL MAINTENANCE

Ensure that your floor is cleaned regularly. Wipe up any spilled liquids immediately, as they will absorb in to the wood and the wood will expand. Use protective pads under all furniture legs. Protect your floor from grit, and use barrier mats at all external doorways. Sharp objects such as pets claws and stiletto heels can cause damage to your floor.

DO NOT allow liquid to stand on the floor. Never use a wet mop on the floor (always damp only).

DO NOT use abrasive cleaners, they will damage the seal on your floor.

Keep your room at an ambient temperature of 18°C-20°C.

ACCESSORIES

A full range of accessories are available to complement your CONCEPT II floor. Please ask your supplier for details.
